

Sibling Support Programs

At Very Special Kids we recognise the importance of providing support for all family members. The Very Special Kids Sibling Support Program has been designed to meet the needs of siblings with a brother or sister who is living with a life-threatening condition or who has died.

'If we support the whole family, we are supporting the person with special needs. Surely children...will progress much further when both parents and siblings are able to feel competent and emotionally supported, and the whole family can function in a positive, caring manner.'

What the Sibling Support Programs offer

All programs are based on a variety of themes and involve a therapeutic activity designed to create a space for the siblings to express their thoughts and feelings or simply to feel a sense of connection with other siblings.

- Sibling Days
